October 12, 2023

DUBLIN--(BUSINESS WIRE)--Oct. 12, 2023-- [ICON plc \(NASDAQ: ICLR\)](#), a world-leading healthcare intelligence and clinical research organization, today announced that S&P Global Ratings (S&P) upgraded ICON to an investment grade credit rating of BBB- with a stable outlook, based on operating performance and deleveraging.

S&P upgraded ICON from a 'BB+' rating to a 'BBB-', raising their long-term issuer credit rating and their issue rating on the group's senior secured term debt.

S&P highlighted in their report, "*ICON's solid operating performance and voluntary debt prepayments improve credit metrics to a level commensurate with an investment-grade rating*". S&P also cite the expansion of scope with existing clients, and profitability benefitting from realized cost synergies relating to the successful integration of PRA Health Sciences together with continued disciplined cost management by ICON as additional rationale to support their upgrade.

Brendan Brennan, Chief Financial Officer, commented: "*We are proud of the investment grade rating upgrade from S&P, which is aligned with our stated long-term capital allocation priorities for ICON, and indicative of the strong financial position of the company. Achieving this milestone reflects continued focus on strong cost management and the realization of the operational benefits following the successful integration of PRA Health Sciences*".
